

DAGGERS PROVING A POINT

I must say, so far I am very impressed with the form of **Daggers** up to this point. For a team that at one time looked destined for division 2 towards the end of last season, they really have bounced back at the start of this season. They faced a somewhat tricky game this session against **Immortals**, a side struggling a little but one that I feel could have plenty to offer in the weeks ahead if they can just start to put a run together so although form pointed to a home win, this certainly wasn't a match that manager BARRETT could take for granted.

The first half was a rather dull affair due to good tactical decisions from both managers meaning that chances were far and few between. Good marking from the homesters **Daggers** defensive players and a determined defensive mindset from **Immortals** meant that chances were at a premium and both sides went in to the tunnel at half-time all square.

The second half was a different matter though as both manager must have got hold of their players in the break and drummed some determination in to them and the game really opened up as a result. COHEN for **Daggers** opened the scoring as he chased down a lovely through ball to put his finish under the body of the advancing 'keeper but **Immortals** reacted immediately to this by levelling the scoring just a minute later, a flowing move from the kick-off making room for midfielder GREENING who levels for the away side.

Midfielder FREARS restores the **Daggers** lead though with a shot from just outside the box before LOKI drags the visitors back in to it, finishing decisively from 10 yards out. Twenty minutes of the second half played and four goals scored - what a 45 this was turning out to be!

Both teams seemed to pause for breath after this flurry and take stock of the situation. The **Immortals** players perhaps seemed to think they had done enough to get a draw and shrank back in to a more defensive style and neither side seemed to be able to get much penetration.

However, **Daggers** started to dominate a little more from this point on and while **Immortals** seemed content to sit back, it was the home side that regained the earlier momentum that we saw. They were rewarded for their endeavours as TOPPOV finally breaches the defensive line and he gets off a snap shot to give his side a deserved lead. And it's TOPPOV once again who seals the victory late on with another goal, just minutes from time as he gets on the end of a cross to find the back of the net with a simple header.

A good victory for **Daggers** in the face of a valiant effort from **Immortals** and perhaps if they had opted for some man-marking of key opposition players, this could have been a different result today?

Wycombe are a side who are struggling at the moment so manager READ must have known how precious 3 points against fellow strugglers **Spiritus Santos** were today and with some key players injured for them, READ must have been just a little nervous before the kick-off for this one.

Still, he fields a brave side that is designed to get men forward when the opportunity presents itself, while manager SUTTON has his men sitting deep with a zonal marking ploy designed to try and come away with a point. It took the home side just 14 minutes to breach their opponents defence though, who were under the cosh from the very beginning here, as midfielder DUCOS volleys home a stunner.

LURPAK piles on the misery for **Santos** as they conceded again just a few minutes later when he bends low to nod home a cross and although **Wycombe** continue to dominate and look for more goals, they can't find another and the game remains at 2-0 as the half time whistle blows.

It was more of the same in the second half, with **Wycombe** dominating possession and territory while **Santos** were grimly

trying to hang on and not concede any more when a freak incident seemed to throw the visitors a possible life line; **Wycombe**, playing the ball around the park, were forced backwards and the ball ends at the feet of defender MCSTOPPER who turns to pass the ball back to his 'keeper. Whether one or both weren't concentrating no one will know but the pass is nowhere near the 'keeper and the ball rolls in to the back of an empty net.

However, the visitors were simply unable to take any sort of advantage of this gift and it hardly had any bearing on the eventual outcome of the game as **Wycombe** continued to dominate and, to underline that dominance, they went on to score a third with about 10 minutes left as LASHACK capitalises on a defensive error to wrap the game up.

A good 3 points for **Wycombe** but READ will know that he still has a tough season ahead of him while I suspect manager SUTTON is already resigned to playing second division football next season.

OLYMPICS FIRE A WARNING SHOT?

Loftus Olympics travelled to **Sunderland FTM** this session missing both regular 'keeper SOTH POLIN and midfield dynamo DUNOS BUENOS. **Sunderland**, for their part, have struggled to

KICKABOUT NEWS

recapture last season's form but manager HUMPHRIES must have fancied 3 points here today, especially with the news of their opponent's difficulties.

Olympics, due to their needing to field youngster STIXX between the sticks were forced in to a defensive posture with a zonal marking ploy while **Sunderland** chose to deploy a man-marking system.

Despite having home advantage in this one, **Sunderland** struggled to make any real headway thanks to some stubborn rearguard action from **Olympics**, who also found the occasional opportunity to push forward and threaten their opponent's goal. However, chances were few and far between and the first half draws to a close goal-less, a fact which must have pleased **Olympics** manager CRANFIELD.

The second half was much the same as the first as the game seemed to be played in midfield with neither side able to breakdown their opposition and produce some clear cut chances and as it dragged on, the game looked more and more likely to be heading for a draw.

This all changed in the 72nd minute though as striker JENS, quiet for most of the game, suddenly finds himself a little bit of space in the **Olympics** box and meets a cross to smash the ball home with his head and the home side are in the lead. This goal gives them a much needed confidence boost and allows them to go on and make the game safe 10 minutes later as midfielder DUCATI crashes one home from all of 30 yards.

A good win for **Sunderland** who needed the points to keep in touch with the top teams in the table but more important, I think, was the performance today from **Olympics**. Very unlucky not to secure a draw and, once back to fielding a full side, I feel it is only a matter of time before we see them start to record some victories. Other teams in the division should take note I feel.

Another side at the bottom, namely **Hawtonville FC**, also put in a sterling performance this season to hold division leaders **Sofia Utd** to a 1-1 draw at their ground. Both sides lined up with neutral formations, with the emphasis being on midfield dominance and both sides were adversely affected by some awful conditions which certainly detracted from the game but it was, as expected, **Sofia** who still dominated.

Roared on by the home fans, **Sofia** pushed forward at every opportunity in this game to try and find a goal while **Hawtonville**, who struggled for some periods, still tried to counter when they could and made some fine chances of their own when the opportunity presented itself but it's HONECKER for the home side who breaks the deadlock on the half hour mark.

A lovely, flowing move, despite the conditions, sees wingback AUGUSTINE able to get forward and he cuts inside to deliver a cross to target man TAKANOWA who chests the ball down and square to partner HONECKER and his strike from 12 yards out is clinical and leaves the **Hawtonville** 'keeper

rooted.

This goal provokes a reaction from **Hawtonville** though who, despite their lowly position, played some good football out there today and they are rewarded for their endeavours as midfielder KELLY cracks home a loose ball to make the game all square just before the half time whistle.

Sofia continue to push for all the second half and very much dominate proceedings as they look to find a winner but **Hawtonville** have their tails up and defend resolutely and a superb performance from their 'keeper GREEN meant that every time **Sofia** got a shot off, it was dealt with efficiently.

The game ends one all, despite the efforts of **Sofia** to snatch a probably deserved win and with **New Caledonia** also being held to a draw at home, **Sofia** remain top. A good performance from **Hawtonville** must have pleased manager PRITCHARD and it slightly widens the gap between them and the relegation places but they are not out of the woods yet by a long shot.

DRAGON DEVOUR DIDI

Managerless **Dragon** climb to the dizzy heights of midtable after they pull off a hard-fought win against struggling **IFK Didi** in a seven goal thriller.

The game was a very balanced affair although **Dragon** did dominate up front, a factor which was to have a very telling outcome on the game.

Dragon opened the scoring in this one after 25 minutes played as forward FILIPE poked home the ball from close range and they soon find themselves 2-0 up when MALLOY heads home with a towering leap and **Dragon** seemed to be coasting but **Didi** weren't out of it by any means and strike back just after the start to the second half, a deflected shot from midfielder KIEFTSKI finding the net.

Dragon restore their 2 goal cushion though when forward HOLZENBEIN drives home a long range effort and for a long time it looks like the game is going to finish 3-1 to the home side but with just over 10 minutes to go, **Dragon** find another one as HOLZENBEIN scores a second goal, turning on the edge of the box before firing home.

Some last minute drama though sees **Didi** strike once more after a period of sustained pressure finally allows them to release wingback PORIINI as he tears down the left before finding midfielder KIEFTSKI who volleys home brilliantly and the last minute of play is a frantic affair as **Didi** fight for an equaliser but it was not to be and the game ends 4-3 to **Dragon**.

An early, top of the table clash in a game between home side **Ulpha Rovers** in second and leaders **City Boyz** fails to live up to it's billing somewhat as both sides cancel each other out and the expected goal fest didn't materialise.

Good marking decisions from **Ulpha's** manager REID stifled a lot of the **City Boyz** creativity while 4 at the back for the **Boyz**

KICKABOUT NEWS

meant that **Ulpha** found it difficult to make a breakthrough so the game didn't really get going as some people thought it may have.

The result of all this was more or less 90 minutes of inaction as both sides failed to get any sort of grip on the game and the ball spent a lot of the time being trundled around in midfield as openings were sought.

Despite being the away side **City Boyz** did create the more chances, few that those were though, and it was from one of these late, late on in the game as it looked to be heading for a draw, that **Rovers** found an opening and a winner.

The move for the goal started innocuously enough with the ball being passed around the back by the **City Boyz** defenders when a quick ball forward in to midfield finds DOBRINOIU who slips the ball outside and continues his run forward. The ball is worked up to the byline before being crossed back in to find DOBRINOIU once more, unmarked and with some space that allows him time to turn and fire off a shot that beats 'keeper POSSIJON at his near post to the despair of the home fans.

This win sees **City Boyz** open up a four point gap at the top and although it is early days yet, this match may turn out to be pivotal in the great scheme of things (well, atleast where division 3 is concerned).

KINGS RULE

Plenty of action and plenty of goals in the 4th this session meant it was difficult to pick 2 games to focus on. I finally plumped on **Purley Kings** versus **Flowserve** for my first one.

Both sides have had good starts to the season and this game certainly promised goals and it was goals that were delivered.

The home side, **Purley Kings** certainly took advantage of the home support in this derby game as they came screaming out of the blocks and were ahead with just 4 minutes played as MASOVIA cleverly flicks in a cross from close range. They double their lead just 6 minutes later as ARSHAVIN fires home, finishing a lovely move that deserved reward and **Purley** are running riot.

Flowserve tried manfully to get themselves back in to the game and indeed created one or two chances of their own as the half progressed but 'keeper CLARKE was in fine form this afternoon and was determined not to be beaten.

Two more goals followed for the home side just before the half hour mark and these really were the nails in the coffin as far as this game was concerned, you could see the will drain out of the **Flowserve** players as the thought of reducing a 4-0 deficit drained them of desire.

No more goals appeared for the rest of the half and both sides entered the tunnel with the score remaining 4-0.

The second half saw a more even affair as the **Purley** players relaxed, knowing the job was done. **Flowserve** still tried to atleast get on the score sheet and did make a few more good

chances but never looked really threatening and they were caught sleeping after 65 minutes as ARSHAVIN (A) this time gets his name on the score sheet after some good work creates a headed chance which he nods home.

Flowserve do eventually get a goal although it is far too little far too late when they catch **Purley Kings** on the break and defender SCHWARTZ, with nothing to lose and throwing caution to the wind, charges up field, a cross from the left meets him perfectly and he volleys home to give the away fans something to cheer about.

The game petered out somewhat after this and the most interesting incidents were a couple of yellow cards late on, one for each side in what, for a derby game, up to this point had been relatively well-tempered.

5-1 the final score then with **Purley Kings** deserved winners while young manager JACK is just going to have to take this one on the chin. A nasty injury to defender REAGAN could cause him a couple of problems but he is well past his prime anyhow and maybe the manager should look at this as an opportunity to replace him once and for all?

NLP-Redstox have had a steady, if unspectacular, start to the season but they pulled off a shock today when they hosted free-scoring **Thors Hammers** currently riding high in the 4th. Hero for them has to be sweeper DESMONDO, who did all his manager could have asked him to do as he almost single-handedly blunted the **Thors** attack, reducing them to taking long-range potshots before he had a chance to make an interception or a tackle. To be fair, **Redstox** didn't create that much either but their forwards were much more on song when the opportunities presented themselves and a goal-less first half was just about right as neither side really threatened.

An incident however about 10 minutes in to the second half certainly would have an impact on the game as **Redstox** defender DANILO is sent off after a second bookable offence and the **Thors** fans must have now expected some goals atleast and it's goals they got but not as they expected.

Whether the **Thors** players, perhaps expecting an easy win, became complacent or whether the **Redstox** players suddenly found some gumption from somewhere is difficult to decide but whatever the reason, it is the home side that take the lead as midfielder IANIS HAGI chases a long punt up field before beating the last man to slot the ball home.

Forward ROONEY then makes it 2-0 after 76 minutes and **Thors** are reeling as 10 man **Redstox**, who had hardly mustered a shot all game, are comfortably in the lead. **Thors** try and pull one back and start showing some purpose but they are caught on the break and a third, scored with just 9 minutes to go, is enough to kill the game off.

Truthfully, I must say, it is probably **Thors** who deserved to win this if anyone did but a sterling performance from sweeper DESMONDO and clinical finishing from **Redstox** when the chance presented itself was the difference out there today.

TRANSFER TRAILS

Just one measly deal in the open market as forward **RUKIN** goes to **AS Centurions** from **Burnden Villa** for 375k.

Much more excitement in the auction though as youthful talent abounds and clubs step up greedily to snatch them up. **Inter Walls** manage to get young prospect goalkeeper **GERIENT** for just over 1100k while **Snowdonia** invest heavily in shoring up their defence with the acquisition of sweeper **BOWEN**, arguably paying much more than what the market thought he was worth but player is worth what a club is prepared to pay. Young defender **EVANS** goes to **Harleys** as they look to strengthen what is already a strong squad. **Saints** buy the aptly named midfielder **ST DAVID**, seeing off a close bid. **Crazy Town** buy the Welsh twins **SEABROKE** and **SEABROKE**, two very good acquisitions for the future while the slightly more mature (but not much) defender **COLLINS** is snapped up by **Daggers** as they look to strengthen their back line. Midfielder **DERFEL**, well on his way to becoming a P/S player is snapped up by **Wycombe** for a very reasonable 376k while **Sandwich Town** strengthen their attacking capabilities by bringing in fast learning forward **GORNOWY** for 777k.

KICKABOUT MUSINGS

Managers often complain about training injuries, but there is a simple way to help mitigate this. Have a decent squad with a couple of reserves. A high value UT who can slot in any where is always a great help. But I need cash in the bank, I hear you say, just in case that level 20 MF/AD appears in the auction (which of course you will be outbid for). And strangely enough the ones who scream about that training injury are usually those with ten million stuffed away doing nothing to enhance their squad whatsoever

INTERNATIONAL ROUND UP

Italy steal a victory against **England**, scoring 3 goals in the last 10 minutes as concentration levels plummet for the away side who had worked so hard for 80 minutes to keep a dominant **Italy** on the backfoot. **France** cement their position at the top with a solid, if uninspiring win against **Scotland**.

Poland lose to **Russia** in a classic Commie smash and grab but retain top spot thanks to a lacklustre performance from **Germany** that sees them sink like the Bismarck to lowly **Portugal**

KICKABOUT

AUCTION

AUCTION NOTES

From now onwards we would like you to always write, 'don't sell if he turns star in the messages to GM box EVEN IF HE IS A LEVEL TWELVE STAR, as well as ticking the relevant DON'T SELL box in teampick. NOTE THAT TICKING THE BOX IS THE MAIN DECISION-MAKER IN WHETHER A PLAYER IS SOLD OR NOT, the GM Message is just to help the GM as during the transfers we have no way of knowing whether a player has become level twelve in THAT SESSION.!

Also PLEASE DO NOT leave partially-completed transfers in your transfer section, i.e. leaving the team name or the player, etc., it is laziness on your part and might result in strange things happening to your team!!!

And you MUST spell the names of the players included in any deal correctly. If you don't then the program might refuse them and they don't go through, so be careful.

In future, you are allowed multiple conditional bids from which the program will attempt to purchase just one item. However, you are also allowed multiple Unconditional bids from which the program will attempt to purchase all. teampick users just have to use the relevant boxes in the program, those who don't use teampick must ensure they stick to these rules and make it clear on their turns just what they want to happen in their bidding process.

LSO, be careful when doing deals etc. The program works on team order, which can cause problems. Best idea is NOT to have 25 players in your squad at the start of a turn and do deals and sell to NL, cos if the manager you are doing a deal with has a lower team number than yours, the program will say you have no space in your squad, even though you are trying to sell players to the non-league. His orders will be processed before yours!!

ROLLING AUCTION LEVELS

The following are the minimum levels relating to each session for entering players into the rolling auction:-

<u>SESSIONS</u>	<u>MIN LEVEL</u>
1 to 3	5
4 to 5	6
6 to 8	7
9 to 10	8
11+	9

These are also the same levels which decide whether a player will go straight to N/L when out of contract rather than being put into the auction

KICKABOUT BITS

SOCIAL MEDIA

We have finally been dragged kicking and screaming into the 21st Century , pity all dinsoaurs aren't like that and have upped our presence on social media sites. Links to our pages will soon appear on the web-site, but in the meantime we can be foudn on

FACEBOOK - kickabout online

and Twitter

Online Kickabout

MARKING UPDATE

We have worked out a system to check on anybody who is using last season's marking numbers for the current season. Basically the program will save a list of all valid marking successes each session and if somebody cries foul, that he has been marked by somebody who hasn't scouted him, we can check and say yea or nay.

So from now onwards if you use last season's numbers then you will be found out AND if guilty the result of the game will either be reversed or decided against you.

CREDIT CARD PAYMENTS

Can be made to us using the PAYPAL service. So if you want to pay anything by credit card then you could register with them and give it a try. Also note that if you send your payments as a gift ALL of the cash reaches us without any paypal fees being charged at our end and all is credited to your account.

You can pay by card/paypal through our new web-site

KICKABOUT BITS

THE KICKABOUT COMMUNITY

EMAIL CHAT LIST - yes, you can subscribe to our email discussion group. There is a list for general Kickabout topics, a list for each individual league, one for the vulcano, one for teampick subscribers, even one for the weekend players. Learn more about the game, talk to other players and the Gm. To subscribe to the main list send a blank email to Kickabout-subscribe@yahoogroups.com. For others you do the same except put the league, name with Ka- in front of subscribe. However, some league lists have an ending in .co.uk instead of .com, so if one doesn't work then please try the other!!

One thing to note about subscribing to the list, we post a regular schedule of where every league is in the processing schedule, when it is sent out, when the latest return-by-date is. This is of great help and if you have email you should really be receiving this.

KICKABOUT SERVICES

MAILING - rather than sending SELF-SEALING SSAE's, rather than getting charged a £1 postage when you neglect to send one in or if they don't arrive. Pay for all-season mailing and we provide the envelope, the stamp, and the sticky label as well. No sweat. A season costs £25.00 overseas, £15.00 UK, or pro rataish if started during the season.

ALL EMAIL - if you have shomatch/ teampick then you can elect not to have any hardcopies sent to you at all as everything can be done by email. Just let us know if you wish to do this in future. Handy for those abroad or in difficult postal areas. If you play in more than one league, and paid for all season mailing it's actually cheaper to buy shomatch and do it this way.

TEAMPICK/ SHOMATCH/ MARKINFO - all the info you need for these programs is at - www.Teampick.co.uk

NEW WEB-SITE is now up and running, www.Kickaboutonline.co.uk to see the goodies

MARKING INFO - Tim Dodge has put together a clever little program that allowss shomatch subscribers to gather all the international squads together each session so that you can use that info to get marking info. Shomatch/ teampick subscribers get a file sent out a file with all the int squads listed and this program pulls them all together. Makes it easier than ploughing through back newsletters, etc.

Latest version now available at
<https://cloud.invisibles.org/index.php/s/IRZTnvG4zmbNXBt>

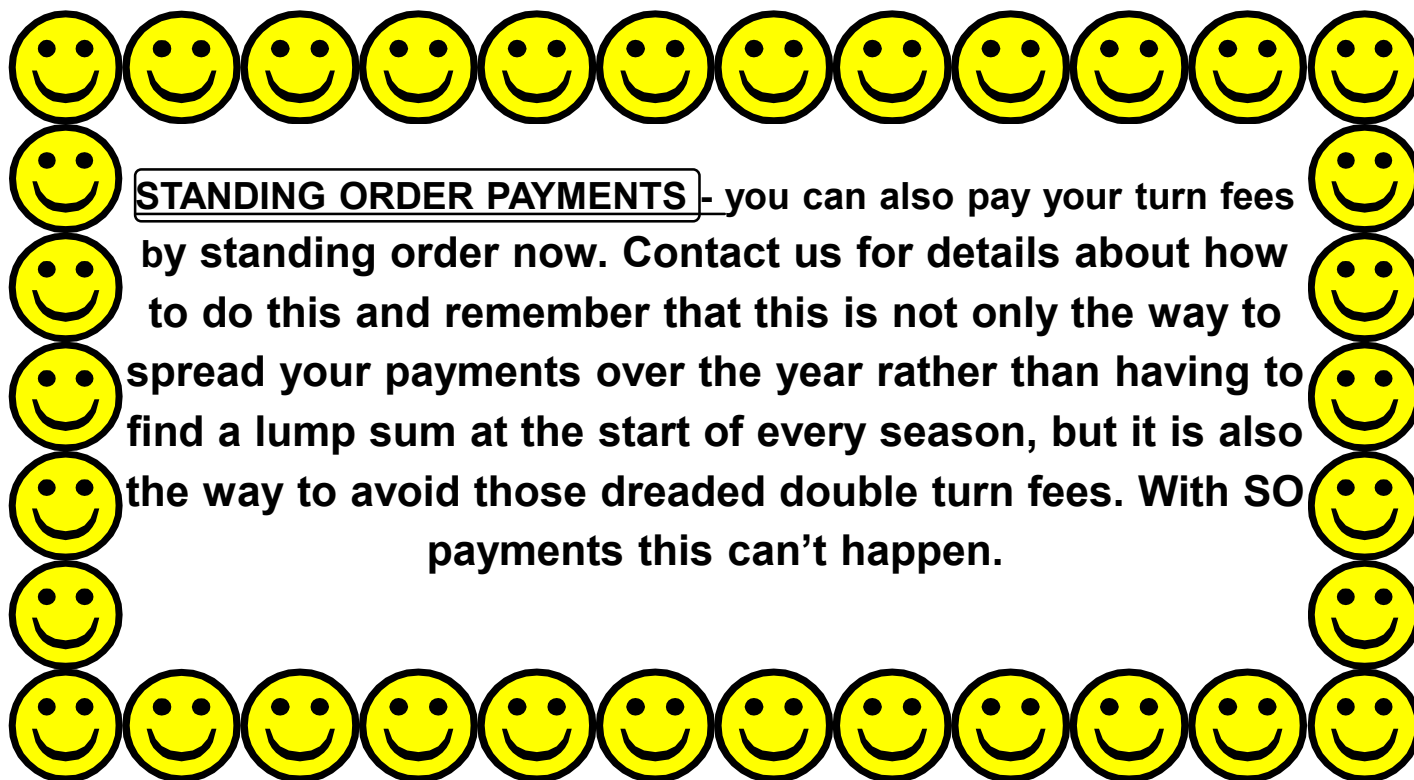

PLEASE NOTE THAT UNLESS YOU SUBSCRIBE TO
TEAMPICK/SHOMATCH THEN YOUR TEAMSHEETS
WILL ALWAYS BE SENT OUT BY POST. EMAIL TURNS
ARE ONLY SENT TO TEAMPICK/ SHOMATCH
SUBSCRIBERS

KICKABOUT BITS

BULK PAYMENT OF TURN FEES -

remember if you pay £59.50 at one time (which can cover more than one team) you get an extra free turn credited to your account. This offer does not include shomatch/weekend or special offers monies!

STANDING ORDER PAYMENTS - you can also pay your turn fees by standing order now. Contact us for details about how to do this and remember that this is not only the way to spread your payments over the year rather than having to find a lump sum at the start of every season, but it is also the way to avoid those dreaded double turn fees. With SO payments this can't happen.

NORWICH WEEKEND IN MAY 2021

Another KA weekend has been booked for 6th to 9th of May next year in Norwich.

SO why not put it in your diaries NOW, and make it a bumper weekend in a really good environment me hearties?

MANAGERS NEEDED

CAPITAL CITY, more of a challenge side really but they do have money in the bank if you fancy a challenge for next season

plus

GLADSTONE league **CONISTON ROVERS**, bottom of second, a real challenge team, but got soem cash to start the rebuilding

and

PREMIER league **WATFORD** - fancy taking on an impossibel job? Try this team, as usual ruined by Mr Heath and two.5 mill overdawn. Can you reusrect them, probably needs the Andy Baker type of approachh though even he might find it difficult

Friendly Pool

NO WAY JOSE

KICKABOUT INTS

THE INTERNATIONAL TROPHY

There will be two groups of six teams each playing the other once (remember an extra point for an away performance), There will then be a KO semi-final, for all positions and a final session of six games to decided the twelve placings

First the prizes,

WINNER - 500K

RUNNER-UP - 200K

BEATEN SEMI-FINALISTS - 150K each

Beating any HIGHER RANKED team earns your club balance 100K

Winning any game (though not on penalties) gains you an extra 1 MP for your club side

The international scene can be therefore quite lucrative for your club side and with the arrival of your free SUPER SCOUT on Session two this becomes even more lucrative as well. However remember that if you fail to put in any orders he will DISSAPPEAR and you can only get him back by submitting a set of orders next time, and asking fro him back, when he will re-appear at the end of that session you submitted the orders.

FIXTURE SCHEDULE

S2 - A v B / C v D / E v F

S3 - B v C / D v E / F v A

S4 - C v F / E v A / B v D

S6 - D v F / A v C / B v E

S8 - A v D / F v B / C v E

S10 - PLAY-OFFS ALL TWELVE TEAMS

KICKABOUT BITS

THE WADDERS ADVICE COLUMN

CONTRACTS - Contracts are the lifeblood of your team. Bidding too much means that cash to run your club and to purchase new players will be unavailable, bid too little and some of your prized players will vote with their feet and ask to leave the club as out of Contract players. SO, it's up to the intelligent manager to strike the happy medium indeed. The optimum bid every time a player comes up for a contract negotiation is of nine weeks, but this isn't always the case. If you have a young player, say an 18YO APP to negotiate with then it's often a good idea to bid for say 16 weeks plus, bid a few K above his performance level and see what happens. For a SBY you can push the boundaries even further. Try 26 weeks and see what happens. If you can catch them young on a low but long contract this is of great help, saves you cash, and when they finally do come to negotiate their next contract you start from a lower level vis-a-vis their then performance level.

For older and higher level players it's always good idea to make a slightly crazy bid, say for a level 12, bid 1K for nine sessions and see what happens. If you look at the two columns next to the players name on your squad sheet you'll see just how close this came. In all probability it will come nowhere near but you might just get lucky indeed. Remember the program looks at current wage levels and current performance level when assessing the validity and the success of bids. SO the lower the level you can get your players on the better for the future.

' bids fail then it's time to get serious, you don't want the bidding process to get down to the last week do you. On the second week, well it's still a good idea to go in low, 9 for 9 on a level twelve can bring success, but if this is turned down then you need to start thinking about giving the player what he wants. If you should get down to the last week, and there are players who just don't seem to want to accept a bid under any circumstances, then you might have to break the bank. On the last week that level twelve is going to want at least 36K for 9 weeks to be sure of acceptance, and remember too that there is ALWAYS a chance of rejection. If you offer the sun, the moon and the stars, it is NEVER a 100% chance of acceptance. However, the 36 for 9 offer should have a 95% chance roughly of acceptance in this situation. The worst thing in the world is for your prized player to leave the club. Remember too that specialist players who go into the auction especially specialist ones, have a low reserve probably nowhere near the amount you would put on them, and it's in eh lap of the gods what you finally receive for them.

A point to remember here about players sold tot eh non-league. They received the value according to their age (a MF/D for example receives exactly the same as would a MF, though who would really want to sell one to the NL is debatable). Also, that you have to pay up the remainder of the players contract before he leaves the club. This is another reason for conscientious contract bidding. If a player becomes surplus to your requirements then it's galling to see a large chunk of the money you would get for him swallowed up by his wage pay up, because of poor bidding for his contract in the past, isn't it?? It is also a good thing to keep the end of season in sight. Remember that if, for example, you bid, say 12K for 9 sessions, and it is accepted for that level 12 player, and this contract runs out in the following season, it isn't a problem if he is, say, 19YO. However, if for example, he's a 27YO player, then come the following season you might start it with a 28-4 on your hands who you are paying 12K a week. Do you train him up again, do you sell him and take the wages hit, what do you do with a player on a high wage but can't get into your team perhaps??

AGEING - is the scourge of all managers. Throughout the season you should keep your eyes on what is going to
