**Your team start up and players should have arrived at your club. These Veteran Players are already to start playing in the inaugural first season.**

**You will need to recruit through your youth network apprentices and one Schoolboy. Derby opponents will be available from next season.**

**In another first for Kickabout we have a Bosman style auction**

**To help establish football on the Island we are pleased to offer you these players looking for a new club.**

**The players listed here are from a neighbouring SAM island.**

**They will join on a Bosman free to the club bidding the most for their contract.**

**Some important things to note**

**The players must be called "BOS "?????" " e.g. BOS RONALDO**

**These players come on a 12 session contract**

**The bids are conditional ie. only one player per team**

**The bid is for the wage of that player arriving on a 12 session contract**

**e.g. if I bid and win player one for 8k I get him for 8k and the player arrives on a 8k contract for 12 sessions and cannot be sold on in the first season.**

**Players not bought will be rolled on to the following session.**
