## AUCTION NOTES

NOTE  
THIS  
WELL

From now onwards we would like you to always write, 'don't sell if he turns star in the messages to GM box, **EVEN IF HE IS ALREADY A LEVEL TWELVE STAR ALREADY**, as well as ticking the relevant DON'T SELL box in teampick **EVEN IF HE IS ALREADY A LEVEL TWELVE STAR ALREADY**. NOTE THAT TICKING THE BOX IS THE MAIN DECISION-MAKER IN WHETHER A PLAYER IS SOLD OR NOT, the GM Message is just to help the GM if there is a problem!

Also PLEASE DO NOT leave partially-completed transfers in your transfer section, i.e. leaving the team name or the player, etc., it is laziness on your part and might result in strange things happening to your team!!!

And you MUST spell the names of the players included in any deal correctly. If you don't then the program might refuse them and they don't go through, so be careful.

**In future, you are allowed multiple conditional bids from which the program will attempt to purchase just one item.** However, you are also allowed multiple Unconditional bids from which the program will attempt to purchase all. teampick users just have to use the relevant boxes in the program, those who don't use teampick must ensure they stick to these rules and make it clear on their turns just what they want to happen in their bidding process.

**LSO, be careful when doing deals etc. The program works on team order, which can cause problems. Best idea is NOT to have 25 players in your squad at the start of a turn and do deals and sell to NL, cos if the manager you are doing a deal with has a lower team number than yours, the program will say you have no space in your squad, even though you are trying to sell players to the non-league. His orders will be processed before yours!!**

## ROLLING AUCTION LEVELS

The following are the minimum levels relating to each session for entering players into the rolling auction:-

<u>SESSIONS</u>	<u>MIN LEVEL</u>
1 to 3	5
4 to 5	6
6 to 8	7
9 to 10	8
11+	9

These are also the same levels which decide whether a player will go straight to N/L when out of contract rather than being put into the auction

Please note that from now onwards it is illegal to sell any player and then buy him back in the next three session FOR ANY REASON WHATSOEVER. If you do that playing will be banned for life and you will lose him

Learn more about the game, talk to other players and the Gm. To subscribe to the main list send a blank email to [KA-kickabout+subscribe@groups.io](mailto:KA-kickabout+subscribe@groups.io). For others you do the same except put the league, name with Ka- in front of +subscribe.

One thing to note about subscribing to the list, we post a regular schedule of where every league is in the processing schedule, when it is sent out, when the latest return-by-date is. This is of great help and if you have email you should really be receiving this.

## MARKING UPDATE

We have worked out a system to check on anybody who is using last season's marking numbers for the current season. Basically the program will save a list of all valid marking successes each session and if somebody cries foul, that he has been marked by somebody who hasn't scouted him, we can check and say yea or nay.

**So from now onwards if you use last season's numbers then you will be found out AND if guilty the result of the game will either be reversed or decided against you.**

## THE MUCH MALTREATED DF/A

After much discussion with the KA fraternity at large we have decided that from the end of this season DF/A's will qualify for getting the best defence bonus just like SW & DF do. So DF/A's are even more important a player.

MARKING INFO - Tim Dodge has put together a clever little program that allows s shomatch subscribers to gather all the international squads together each session so that you can use that info to get marking info. Shomatch/ teampick subscribers get a file sent out a file with all the int squads listed and this program pulls them all together. Makes it easier

## THE NEW TROPHY SCHEDULE

With three divisions now the trophy has had to be rescheduled.

From now onwards it will start in Session eleven and be played each session until the final on session fifteen (no replays in any rounds).

Session eleven will consist of the bottom eight clubs sin division three playing.

In round two on session twelve the other division three clubs and the bottom eight in division two will all come into the competition.

Hopefully Paul will, put a new fixture list on the teampick web-site so you can update teampick

## KICKABOUT MUSINGS

Perhaps this is the place to remind the great KA public of an error that people seem to make without thinking.

If you discover an sby or app as a substitute then you have to discover him again the first time he plays a competitive game. The KA program doesn't recognise discoveries, if they are substitutes, it only recognises them when discovered in a competitive game. If you don't do this then if you play the sub in a competitive game with out discovering him there it will be ignored as he doesn't exist in reality

# THE WADDERS ADVICE CENTRE

SPECIALIST PLAYERS - these are the type of players that will often give you the edge on your opponents. By the end of a season a decent team is quite likely to be able to field a full team of level twelve's, so you need something else to give you an advantage and that is where specialist players come in. Each one gives a different type of advantage, some always available, some only coming into play when certain conditions apply. Obviously they cost a lot to purchase as they are very effective players to have in a side, or you might be lucky enough to discover them, either through raring apprentices, through your youth scheme and in the case of MF/G's during the ageing process. They are still expensive though as to train them up to effective levels costs many SPS, which you cannot use for your other players.

A point here about all players whose type is followed by a '/'? is valid here. Remember that with these players not all of them add levels to the other areas of your team (and when they do REMEMBER to add them won't you). It's only the Midfield specialist that adds levels each and every time, an MF/G or DF/A never adds levels, or should I say, YOU NEVER add the levels to your side!! The levels are added by the computer after it looks at your side and compares it with your opponent. It might be that no levels are to be added, or it might be that all levels are, but whatever, it ISN'T YOU who adds them and for the addition of levels purpose you treat them as normal players.

Also, remember that for certain players to be effective they might have to combine with another player (A FWT has to have either a DF/A or WG in the side to have a chance of doing anything), certain conditions might have to be met (a WG has his best effect against a team who play offside against you, or it might be a pure case of outfield levels (thus a DF/A really comes into it's own if your DF is stronger than the opponents Fw-line and can get forward and create shots on target).

One interesting specialist player is the FWS. This player type can play anywhere without loss of levels, so is in effect a UT type player, but it also acts as a quasi-star as well. Not quite as effective as a Star because the lower the level that a FWS is, the less effective he becomes at creating chances, though even a level 2 FWS might generate extra chances each game. This is somewhat mitigated however, that when a chance becomes a shot on target the FWS is always more likely to score as that is his job indeed. If you look at the table of high scorers then you will invariably see that FWS's appear in them in inordinately large numbers. So the FWS is a very effective player perhaps under-rated by some of you. See how many times his name appears in moments of brilliance and that is only when he creates a chance, the rest is invisible to you.

There is a very full description of each specialist player in the rulebook, and perhaps it stands re-reading very now and again, lest we forget what they all do and how to get the best out of your team. Everything has to fit. How many of you have decided to play positive and five-man attack and then included a SW and MF/A only to find that both these players don't play to their full potential?? How many of you have a team full of midfield specialists and find that there is no room for those DF/A's to speed up and down the flanks cos there is no room for them to play?? .

## round up time

Six points each for **Leodis & Primrose** does much to improve both club's seasons for sure. **IB** also in good form to move into close contention, they are definitely in the mix as **Jersey Boys** move back to the top after an important victory over the **Colts**.

**Requiem** win at **Vipperood**, important win to help the relegation fight as the Jensen team looks in deep shite now

MANAGER OF THE MONTH goes to OVERLI of IB 2301, looking good

**Havering** in fine form in the second begin to break free of the pack, though still well behind all-conquering **Brecon Warriors** . What happened to the **Angels**, Wow, goalie off early on and the **Spuds** gratefully fill their boots for a much-needed win. Middle of table very congested here.

MANAGER OF THE MONTH goes to BARRETT of HAVERING TOWN, back to the top division AGAIN!

Top three breaking clear in the third . **Fralka's** defeat at lowly **Les Ferdinand** helped load here and begins to look as if the top three won't be caught Draw at **Globetrotters** is a good result for the improving **Wise Guys**

MANAGER OF THE MONTH goes to ARMSTRONG of WISE GUYS, on the up again
