MONTGOMERY LEAGUE CUP

3rd round draw

Bel Feirste Rua v Royal Arsenal

Clifton Legends v Tartan Terrors

Xanadu v Al Khali FC

Kings Park Rang v Hopkins Utd

Belfast Celtic v Stalingrad

St Elistra v Custom Car City

Salamanders v pSV Gessle

Alainza Lima v Southland City

(two legs played on sessions 5 & 7)

MANAGER OF THE MONTH

Divison One goes to manager ASHCROFT of **Southland City**, top of the dung heap and looking good

Divison two goes to manager MCRUDDERS of **Belfast Celtic** ttwo great results against higher-placed teams this session

Division three goes to HAILS of **St Elistra**, good session as they progress in the league cup

Divison Four goes to managers TIM & KEZ of **Kings Park Rangers**, can anybody stop them?

DIVISION 1

Top boys dont have it all their own way this session, as Amec, City Blues, Stalingrad and Hayle pick up points against higher teams.

Southland escape the banana skin that is Jondal. Dunlaghaire will be getting a bit edgy and Dag will be disappointed with Polski's session.

DIVISION 2

Khmer are gone down the pot, Salisbury get their first win and a good one at Salamanders. Ackworth nearly push Wadders over the edge until a late own goal gives him a soft landing.

Janiero are on the up and so are Belfast, whilst if Custom Car get a jump start they could challenge at the top.

KICKABOUT BITS

MARKING

From now onwards if you use last season's marking numbers then you will be found out AND if guilty the result of the game will either be reversed or decided against you.

MARKING INFO

- Tim Dodge has put together a clever little program that allowss shomatch subscribers to gather all the international squads together each session so that you can use that info to get marking info. Shomatch/teampick subscribers get a file sent out a file with all the int squads listed and this program pulls them all together. Makes it easier than ploughing through back newsletters, etc

The latest version now available at

<https://dodge.me.uk/markinfo.exe>

PLEASE NOTE THAT UNLESS YOU SUBSCRIBE TO
TEAMPICK/SHOMATCH THEN YOUR TEAMSHEETS WILL ALWAYS BE
SENT OUT BY POST. EMAIL TURNS ARE ONLY SENT TO TEAMPICK/
SHOMATCH SUBSCRIBERS

Please note that from now onwards it is illegal to sell any player and then buy him back in the next three session FOR ANY REASON WHATSOEVER. If you do that playing will be banned for life and you will lose him

MUTTERINGS AND MEANDERINGS OF THE KICKABOUT MIND

- A Sweeper is basically a defender with additional responsibilities. Adopted from the continental game, the Sweeper tends to play behind the men at the back, forming a mobile, roving line of defence that can move to lend aid where needed, and to make timely interceptions in attacks that might otherwise result in a goal scoring opportunity. The use of Sweepers reduces the tactics available to your side, as they will be unable to play an Offside game, due to the Sweeper's position throughout the match.

When played in the Sweeper's role, this player has one major benefit and one major drawback. The benefit is that if the opposing side is fielding a FWT in their team, the SW automatically "man-marks" him for the duration of the game, ensuring that the FWT is unable to play his normal game. The drawback is that if your side chooses to push too many players forward, the SW is forced to move into a solely defensive position, playing as a DF only.

CONTRACTS UPDATE

So from now onwards if your prized player is on the last week of his contract

AND THIS ONLY RELATES TO THE LAST WEEK OF HIS CONTRACT PLEASE NOTE

Then there is a wage that if offered he will ALWAYS accept.

This has to be calculated by you (Oh shite!!)

The formula is as follows :

3 X basic wage where the basic wage = player level X PS Bonus X Div Bonus X POS Bonus X Type bonus

player level is obvious

P/S bonus increase the basic wage by 20%

Div Bonus - 125% for div 1/ 110% for div2 / 100% for divs 3/ 75% for div 4

Pos bonus refers to STARS/FUT/SBY which require 50% uplift

Type bonus is equal to the players expected wage rates , ie MF/A/D x3 - **Df/A X 2 / UT/WG/FWS x1.5** / GK SW X 2/ FW/MF/DF X 1

AND THIS ONLY RELATES TO THE LAST WEEK OF HIS CONTRACT PLEASE NOTE

as an example a DIV ONE 20/12 PS MF/A/D STAR would require a wage offer of **OVER** basic wage (81K) X 3 to accept unconditionally , i.e. 243K+ per week

or a 20-10 DIV THREE S DF/A would require a wage offer of **OVER** basic wage(20K) X 3, i.e. 60K+

On the last week of the contract there is no optimum length of contract though we suggest you opt for four weeks so you have time to bid again

I REPEAT - AND THIS ONLY RELATES TO THE LAST WEEK OF HIS CONTRACT PLEASE NOTE

One last change to note as well. In future at whatever stage of the contract negotiation you are at with a player, the min he will now accept is one third+ of his basic wage

so in the MF/A/D example a bid under 27K+ will be rejected, the DF/A minimum is 6.66K+

NOTE THIS WELL ALSO

In the calculations above where it refers to WAGES, this also refers to wages + any experience the player as. This means that you are NOT ever sure about the calculation. Not that important for a normal player who does not have an * by his name, but where specialists are involved it can be important. So we suggest that when offering a contract to a player who is a specialist or has an * by his name, you add something extra to the calculation. I would say 5k is a good rule of thumb

MANAGER'S NEEDED

SPECIAL OFFER

The two quick leagues Messi & Hope will have a few places free when the season ends next week. We'd like to fill these few places up so here's a dooper souper special offer fo you.

Take on a team with a free season on offer and you can claim a free season for ONE of your othert teams. How can you turn that down. Open to existing or new Quick legaue players.

Give it a go ???

First Phase and Second Phase

First Phase

FIRST PHASE possession is basically the normal way of creating shots and testing them against the opposition. It's an up-dated system that follows on from the old 'United' simplistic way of generating shots. I won't go into this again, it is explained in the rulebook, but basically each area is tested against the opposition's relevant area to generate a shot total for that area (though MANY, MANY other factors are taken into consideration in doing this!)

A shot total for each area is thus generated and then tested against the opposition, moving through the field of play so to speak. Thus if your defence generates shots against the opposing midfield, they are then tested against the opposing midfield to see how many go through (at this point it is worth pointing out that UT's aren't as good as other players in getting them/ stopping them going through. Then they are tested against the opposing defence before a total is worked out that are on target so to speak, and tested against keeper and sweeper if one is playing. Thus defensive shots aren't as valuable as other areas, because they have so much more to do before they can become on target. The same is done for midfield, then forwards, who you can see would be more effective as they are only tested against the defence before being adjudged to be on target.

Now in all this generation various major factors affect the shot creation totals, for example, whether you are playing defensively, whether the opposition has an effective offside trap, zonal marking, etc., all restrict the effectiveness of first phase shot creation.

Second Phase

Now here is where the whole thing becomes interesting indeed. Second phase possession is different in that it is NOT tested against the other areas of play. Second phase possession consists of those shots generated by your FWT, your DF/A and your Creative players. These shots go immediately to be tested against keeper/sweepers. Thus they are Far more effective if you have such players and they work for you. The only thing that can stand in the way of these factors are your ball-winning players, who can stop these shots before they are tested. Now a thing to remember about Ball-winning shot negation is that they only stop shots in areas where shots have been created by the opposition. So if you have an armada of midfield ball-winners, but your opponents has DF/A's & FWT men then they are going to be wasted (though remember that Ball-winners also stop the normal shots created from First Phase possession if they come through to that area. It doesn't take a genius to show that ball-winners are BEST in defence (Norwich City & Crystal palace please note), as FWT & DF/A's if they are active ALWAYS add their shots to the forward line.

Ok, so FWT/ DFA/ CR players are therefore very effective indeed, simply because shots they create are going to have an 'easier' passage towards goal. This means that if your opponent has these 'shots' in his armoury you have to devise ways to stop him. It means a sweeper playing as a sweeper is a very important tool in your armoury for this alone, never mind his other advantages, while pressing the opposing defence back, where he is playing a DF/A becomes important indeed. Ball-winners help to negate Creative players, though against a side packed with high creative players (and there are some), stopping this form of second phase possession is sometimes difficult to do.
